

COMPONENT MOUNTING CIRCUIT BOARD WITH RESIN-MOLDED SECTION
COVERING CIRCUIT PATTERN AND INNER COMPONENTS
ABSTRACT OF THE DISCLOSURE

5 A component mounting circuit board includes a circuit
pattern including a plurality of electrically conductive plates,
an inner electrical component electrically connected to the
circuit pattern, and a resin molded section made of a resin by
way of molding so as to cover the circuit pattern and the inner
10 electrical component. The resin molded section has an opening
allowing an outer electrical component located outside the resin
molded section to be connected to the circuit pattern through
it.
